## MAKING A RECORD.

Fellow-Servant Legislation in the House.

## EFFORT TO GET A REPORT.

The Anti-Lobby Bill in the Senate—Amendments Defeated—The Pettis Circuit Judgeship.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 8.—The senate had little to do this morning, so it indulged in an extended debate over the anti lobby bill which was so amended yesterday as to make it ridiculous.

Senator Peers reported the bill from the committee on criminal jurisprudence and asked that the amendment adopted yesterday be agreed to and printed.

Senator Morton wanted the amendment printed first, and upon this minor point of difference an argument of an hour followed.

The amendment making it unlawful for a newspaper to attempt to influence legislation by lampooning, caricaturing or abusing members of the legislature was attacked by Senator Morton on the ground that it was unconstitutional and beyond the scope of the general assembly. "The legislature may be pretty big," said Senator Morton, "but it has not reached that point where it can override the constitution." Senator Love, Senator Yeater, Senator Lyman and others opposed it because they thought it useless and not worth the paper it was written on.

Senator Gray made a humorous speech opposing the entire bill. Senator Yeater, referring to the fact that Senator Gray is brother-in-law to Col. Phelps, said he was sorry that the senator from Jasper made the bill a family matter.

Senator Gray retorted that section 2 of the bill gave Col. Phelps full and unrestricted rights, so that therefore the "Gray family" was not hurt.

The running argument lasted till noon, when the amendment in regard to newspaper was defeated and the other amendments so changed and cut up that the bill was changed materially.

### Putting Them on Record.

Mr. Davidson, of Marion, is determined to put the house committee on labor on record in the matter of a fellow-servant bill. This morning he presented a resolution requiring the committee to report on all bills before it by 10 o'clock Thursday. Mr. Minniss, of Carroll, promptly offered an amendment declaring that the house had implicit confidence in the committee and believed it would report upon all bills in time.

Mr. Bothwell, of Pettis, moved that the whole matter be laid on the table. The proposition was carried by a vote of 68 to 62.

The house adopted a resolution presented by Kyler, of St. Louis, asking the governor to send in a supplemental message to provide for the continuance of the school text book commission. It was claimed that the commission has saved the state \$800,000 in the last five years. Governor Stone will probably heed this request, as he has been contemplating sending in the message ever since the assembly convened.

### The Pettis Judgeship.

Hon. W. F. Tuttle, of Dresden, ex-speaker of the house, and Mr. John G. Senior, a prominent farmer of Pettis county, called on Governor Stone last night on an important mission. They came to urge the governor to appoint Colonel T. P. Hoy, of Sedalia, circuit judge of the Pettis judicial circuit, the new circuit created by Senator Yeater's bill at the regular session. It was understood among the members of the Sedalia bar that there should be no applications made to the governor and that his excellency should be left to make his selection unhampered. This, it is said, was a suggestion of the governor, and it will doubtless cause surprise when the object of Mr. Tuttle's visit becomes known, and may open up a lively contest for the position.

### The Junior Outing.

The arrangements have been made for the junior outing by way of the narrow gauge to Spring Fork.

The fare will be fifteen cents. Every boy of 14 years and under is requested to be at the Y. M. C. A. hall at 7:30 a. m. Saturday morning, May 11th, and go on the excursion. Take your lunch, fishing tackle, etc. This outing will be under the direction of Chas. H. Wilson, the physical director, assisted by Mr. T. L. Kerr. Base ball, foot races and other athletic games will be participated in.

## ALMOST A LYNCHING.

Indignant Citizens of Shawnee County Near Hanging a Ruffian.

TOPEKA, Kas., May 8.—Yesterday about noon Charles Curtis, who has been driving a hack in Topeka, went to the farm house of Frank Tigner, twelve miles south of the city, and attempted an assault upon Mrs. Tigner, who was in the house alone. After a desperate struggle she defeated his purpose and succeeded in escaping from the ruffian. She ran to a farmhouse half a mile away and gave the alarm. The neighboring farmers were quickly gathered and soon corralled Curtis in a patch of timber, to which he had fled.

A rope was placed around his neck and he was about to be lynched, when Constable Lynn appeared upon the scene and succeeded in calming the lynchers until they turned the prisoner over to him. The constable brought Curtis to Topeka and lodged him in the county jail. The prisoner refused to talk, beyond saying that he was down in the Tigner neighborhood in quest of work. The Tigners are highly respectable people. It is said that it was with difficulty that Mr. Tigner could be kept from killing Curtis after he arrived on the scene and found him a prisoner.

## MAY BE A SUGAR FAMINE.

The Trust Has Closed Refineries and the Supply is Curtailed.

ST. LOUIS, Mo., May 8.—A sugar famine is threatened in St. Louis and wholesale grocers are frantically trying to pick up even a barrel or two. For some time the sugar trust has had a number of its refineries closed and wholesale grocers have bought as little as possible owing to the lightness of the demand.

An advance of 1-16 per pound was made by the trust and a remarkable demand sprang up. Every one wanted sugar and no one had any. The New Orleans refinery will not ship sugar to St. Louis as the demand from nearby territory is already too great to be met. Shipments from the east can not be had before May 20. Not a grocer in the city has to exceed ten barrels of granulated, and many have none.

## OIL INSTEAD OF WATER.

A Farmer Strikes the Precious Fluid While Boring a Well.

FORT SCOTT, Kan., May 8.—The oil excitement in this vicinity, which has been created by the anxiety of several large Eastern oil companies to secure leases on farm lands along their geological surveys, was yesterday increased by the development of a prolific well twelve miles southwest of this city. M. W. Turner, a farmer who refused to lease to the oil companies, while boring for stock water, struck oil at a depth of ninety feet. The drill was withdrawn and the well suddenly filled to the surface with oil. Guffy & Galey, of Philadelphia, are making preparations to sink wells in the neighborhood. Four eastern oil companies have most of the land in this county leased for oil and gas privileges.

### Executive Clemency.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 8.—Governor Stone today changed to life imprisonment the death sentences of Murderers Hense and Kaiser, of St. Louis, and gave Murderer Taylor ten years in the penitentiary.

## FIGHT WITH STRIKERS.

Several Police Officers Were Seriously Injured.

CHICAGO, Ill., May 8.—For half an hour last evening the Illinois Steel works at South Chicago were at the mercy of an infuriated mob of strikers, who swept through the works, clubbing away the men who had remained at their posts. Captain Walter M. Jenkins, with a squad of 10 police officers, charged this mob of rioters, and, after a sharp fight, in which clubs, stones and policemen's batons contended for the mastery, finally succeeded in subduing the rioters and arresting a number of the ringleaders.

## A FAMILY REUNION.

A pleasant family reunion is being held today at the home of Mrs. E. V. Neal, No. 312 East Tenth street, who has as her guests four sisters—the first time they have all been together in thirty years—and also her brother, three brothers-in-law and three nieces. Those that sat down to the table at dinner today were: Mr. and Mrs. Geo. Boatman, of Dillon, Montana, who leave for home this afternoon; Mr. and Mrs. Perry Bidstrup, of Clifton City; Mrs. Samuel Brownfield, of Pilot Grove; Mr. and Mrs. J. Brownfield, of Otterville, Mo.; Mr. Isaac Johnson, of Pleasant Green; Miss Lillie Bidstrup, of Clifton City, and Misses Cora and Sarah Brownfield, of Otterville.

## SHE SHOT TO KILL.

And Very Nearly Succeeded—Woman Against Woman.

About 7 o'clock last evening, near the Frisco station at Monett, Mo., Mrs. Stella Snodgrass shot and almost fatally wounded Miss Anna Nave, of Fort Smith, a woman of questionable character, using a 44-caliber revolver.

She followed Miss Nave down the street and unprovokedly shot her. Mrs. Snodgrass claims the other woman was too intimate with her husband. Mrs. Snodgrass is under arrest and guarded.

### Hail and Rain Visit Fayette.

A tremendous rain and hail storm visited the southeastern section of Howard county last evening, and along a strip of country for about five miles. Great damage was done by the washing of land. A terrific hail storm followed, doing great damage to fruit and growing crops. Salt creek overflowed and washed away considerable fencing.

### The Goodwin-Wood Case.

The Goodwin-Wood \$50,000 damage suit has occupied almost the entire time of the Pettis county circuit court today. The plaintiff was on the stand a good portion of the time, and if he wasn't considerably worried when cross-examined by Messrs. Jackson and Lamm, his looks certainly belied him.

## COUNTY DEPOSITORY.

The People's Bank Again Selected for Two Years.

The county court this afternoon selected the People's bank as the depository for the county funds for the two ensuing years.

There were only three bids submitted, viz: People's bank, 2 per cent on daily balances; Sedalia National, 1 1/2 per cent; Citizens', 1 per cent.

The People's bank has been the depository for the past two years, and during that time has paid 3 1/2 per cent on daily balances.

## A CLOSE CALL.

Dave M. Dodge and Family Had It This Forenoon.

Dave M. Dodge and family, together with Miss Pansy Sherwood, of Springfield, had a narrow escape from a serious accident this forenoon.

They were driving south on Ohio street, and at the Thirteenth street crossing one of the tugs came unfastened from the single-tree.

The horse refused to move either backward or forward, notwithstanding a freight train from the north was rapidly approaching.

The female occupants of the buggy jumped out, and an instant later the horse backed the vehicle down the embankment, when the engine was not ten feet distant.

It was a close call, and Dave's heart was in his mouth for a minute or two.

## GOING INTO POLITICS.

President Traynor of the A. P. A. Counsels Party Affiliations.

MILWAUKEE, Wis., May 8.—The supreme council of the American Protective association begins its eighth annual session in Liberty hall today. The committee on credentials held its first annual session yesterday. It is expected that every state and territory will be represented except Mississippi and New Mexico and the Indian territory, and that upward of 400 delegates will occupy seats on the floor of the hall.

It has been generally reported that Supreme President Traynor would take an emphatic stand in council for the formation of a new political party. Mr. Montague, who edits Mr. Traynor's paper, says Mr. Traynor's position is that political wisdom lies in the members affiliating with the party which will champion the best of its principles, and if neither of the old parties will do that and a new party is organized outside of the order which will embrace those principles in its platform he would counsel action with such a party and that it is time for the order to take decisive action along this line. The members of the association claim to be able to control the election in several of the states. They also claim to have increased their membership fully 500 per cent during the past year in New England.

## DURRANT'S ATTORNEYS.

They Secure More Evidence and Try to Prove an Alibi.

SAN FRANCISCO, Cal., May 8.—Theodore Durrant's attorneys have discovered evidence which they believe will enable them to establish an alibi for their client, so far as the Williams murder case is concerned.

A Market street hair dresser states that Minnie Williams was a regular patron. She says Miss Williams entered her shop at 8 o'clock on the night of her disappearance. She had her hair dressed, leaving the shop at 8:25. As it is estimated that by taking the car immediately she could not reach Emanuel church until 8:50, Durrant's counsel argued that Durrant could not thereafter have escorted her into the church, outraged and murdered her, and then walked to St. Vogel's, where he arrived at 9:15.

## TROUBLE FEARED.

An Execution That Is to Take Place at St. Joseph.

In expectation of trouble, which is threatened by the condemned man's friends, fifty deputies with Winchester will keep the crowds at a safe distance from the court house and jail Saturday during the execution of Joe Burris, the negro rapist, at St. Joseph.

Sheriff Andriano does not intend that any trouble shall occur at the execution if he can prevent it. The execution will be conducted with more privacy even than was at first intended. Nobody except the deputies, a minister, representatives of the press and the members of the coroner's jury will be permitted to witness the hanging of the negro. Forty yards of canvas will be stretched above and below the gallows, thus shutting off all view of the scaffold from the court house and jail. In fact, nobody will be allowed to be present in the inclosure or witness the execution unless their presence is absolutely needed. Burris will be hanged between 2 and 4 o'clock p. m.

## HIS SUIT CUT SHORT.

A Negro Is Arrested for Writing to a White Girl.

FORT SCOTT, Kan., May 8.—Samuel Brown, a young colored man, who recently graduated from the Fort Scott high school, was arraigned in the United States district court in this city yesterday and plead guilty to sending a letter to a young white woman of a family prominent in society. She was a high school student and had been in classes with Brown. He seemed to be possessed with a mania for associating with her, and was recently fined in police court for following her and accosting her on the street. He is advanced in several scientific studies.

JUDGE EDMUNDS, of St. Louis, is after the election crooks and it is to be hoped that every rascal of them will land in the penitentiary.

At the city election in Hannibal yesterday the democrats elected every candidate, except for recorder, by majorities of from 94 to 181. Last year the city gave republican majorities.

The Morgan-Rothschild syndicate is alleged to be working up a corner on gold. They are securing two-thirds of the output of the American mines and have paid as high as 1 1/2 to 1 1/4 cents premium. This, under a gold standard, shows the danger of depending upon one metal as primary money.

The DEMOCRAT had a shrewd suspicion all along that the Gazette was not a real believer in bimetallic money of ultimate redemption, and hence could not fully understand what is meant by real bimetalists. The Gazette is opposed to coming either gold or silver and wants some sort of a philosophical currency that it doesn't exactly understand itself.

There is no good reason why a democratic senate and a republican house should disagree upon an election bill. There is no real partisanship in such a measure. Neither honest democrats nor honest republicans desire to see fraudulent votes cast, but every good citizen should cheerfully abide the result of an honest expression of opinion at the ballot box.

The business men of St. Louis are practically united in support of the election bill which passed the senate, and yesterday a large number of the best known citizens—such as E. O. Stanard, Web M. Samuels, Nathan Frank, C. C. Rainwater, Jerome Hill and others, irrespective of party—joined in a request to the house to pass the senate bill instead of the measure prepared by Boss Filley.

PROFESSOR J. LAWRENCE LAUGHLIN who has suddenly, by reason of his gold standard views, become "eminent authority on political economy" has undertaken the task of proving that the demonetization of silver in 1873 was not done secretly. As against his statements we have those of Allen G. Thurman, James G. Blaine, Senator Voorhees, "Pig Iron" Kelley and a host of others who were senators and congressmen at the time, and the positive statement of U. S. Grant, who was president and signed the bill, that they did not know that silver was stricken down.

If Jefferson City is basing her hopes of defeating capital removal upon the supposition that Sedalia will not put up the guarantee required, she had as well save the expense and worry of a campaign. Every man, woman and child in Sedalia fully realizes the importance of the guarantee and there is no doubt whatever about its being in the hands of the governor long before the time required. Indeed, so certain are Sedalians of being able to do what they promised, that they only ask for votes for this city upon the understanding that the guarantee shall be given.

The Gazette thinks we should abandon gold and silver as money and make an arbitrary dollar by law—a dollar composed of neither of the two metals. Every once in a while we come across a good man who tells us that the steam engine and the electric motor are expensive and unnecessary—that perpetual motion is the thing. But we don't abandon the engine and wait for

some enthusiastic philosopher to discover perpetual motion. We simply go ahead using the motive power we have until somebody is ready to furnish something better. In the meantime the people are anxious to restore silver to its position as a money metal.

The people are not to be divided and carried away by theorizing as to what might happen if the supply of gold and silver were cut off or greatly increased. The facts are that so long as gold and silver were coined freely and without discrimination they circulated side by side and their good services as money were testified to by a very great majority of the people. The real question at this time is, "Are you for free coinage of silver at the old ratio of 16 to 1?"

## ADVERTISING MEANS BUSINESS.

There is a world of wisdom in the following from the Moberly Democrat, and business men especially should make a note of it: "The wide-awake business man has no politics in his business. He advertises in every paper worthy of attention. The greenback is as good to him as the free silver or the plutocrat's gold. The republican dollar, the democrat dollar, the populist or the prohibition dollar is all good to him. But the mistake a great many merchants make in advertising is the same mistake made by some purchasers of merchandise—it is the mistake of buying nothing but what is cheap, and simply because it is cheap."

Occasionally a business man is found who is so hide-bound as to refuse to place an advertisement in any newspaper that does not advocate his own peculiar views, but he would be first to disavow any idea of mixing politics and business. He wants customers of all political beliefs, but he himself sets the example of only asking for the trade of those who agree with him.

Such men fail to understand that the readers of a newspaper as naturally look up the advertisements as they do the market reports—indeed the readers of a local paper consider the advertisements as market reports, and the business man who is so narrow and contracted as to refuse to be represented in any but the paper of his own party cuts himself off from a large part of the trade in every community.

Every year the number of such business men is growing smaller, as the fact becomes more generally understood that the cash trade looks for the greatest inducements.

So, too, the man who considers advertising space in a newspaper with comparatively little general circulation as valuable as that in a journal that is read by a large circle of readers, is taking his place along with the man who buys the largest pair of boots he can get for his money with the idea of getting as much leather as possible.

At last advertising has come to be a business matter, and the wise business man understands that his own interest demand that what he has to sell shall be noted in the papers of known circulation in the territory from which he expects trade.

## Funeral of N. D. Hutton.

The funeral of N. D. Hutton, the Chicago Tribune representative, who was killed while hunting bear near Gila, N. M., was held at Mexico, Mo., yesterday afternoon at 2:30, at the deceased's mother's home. The Chicago Press club, of which the dead man was a member, was represented by the following newspaper men: H. H. Bloss, "Times-Herald"; J. Keeley, "Tribune"; George Woods, Chicago Opera House, and Ralph Stout, Kansas City "Star."

## Another Ball Club.

The Lafayette ball club was organized last night and will play any team in the city the members of which are under 15 years old. The make-up of the Lafayettes is: George Bonner, manager and catcher; F. Bryan, pitcher; T. O'Brien, 1b.; Oscar Pfotenbauer, 2b.; H. Poffenhauer, 3b.; A. Kahrs, ss.; W. Shine, rf.; Andy Tyson, cf.; H. Edgerdoff, lf.

## MORE MONEY FOUND.

Another Old Stump Gives Up Money Buried During the War.

News comes of another valuable find in Lincoln county last Saturday.

A. Jackson, while plowing on an island in Cuivre, one mile north of Moscow Mills, turned up an old log containing a heavy tin box, in which he found money and valuables aggregating nearly \$3,000. Nearly \$2,750 was in money, principally in gold and silver. The box contained only a small amount in currency, part of which was in 10c and 50c confederate bills. The paper money was in a poor state of preservation. Besides the money there was a diamond ring worth probably \$75 and a gold watch.

Mr. Jackson had the land leased from his father, Thos. Jackson. A Mr. Shults had been a partner in the lease, but had sold his interest to young Jackson the day before. The confederate money seems to indicate that the treasure was buried during the war.

Anyone who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionary establishment. Some months ago, on leaving the heated work room to run across the street on an errand he was caught in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle in the house.

## Balloon Ascension Tonight.

Not a real balloon, but an imaginary one constructed by the great hypnotist, Lee. It will ascend upon the stage at the opera house tonight and will be filled with mesmerized subjects who think they are in a real balloon. They look over the cage and imagine they see the fleeing earth below. They get warm and suddenly turn cold as they go through the imaginary warm and cold air currents. They descend into a lake and have to swim for their lives on the bare stage. This is one of Lee's most funny tests, and is repeated tonight by request, but will not interfere with the other programme of new novelties and laughable situations.

Last night's audience was fair. What was lacked in numbers was made up in enthusiasm. The subjects were nearly all new and a greater number than ever was on the stage at one time at Lee's engagement here.

## Some Meat That Has Not Advanced.

Notwithstanding the fact that all classes of fat stock have advanced out of sight of all expectation, the Newton Meat Co. wish to call the attention of the public generally that they have not advanced the price on their prime Sunday roast beef, and they are selling more of those fine roasts than ever, for they are something that is hard to get elsewhere. For this reason we have the largest amount of cold storage by one-half than any two other markets in Sedalia, and we cut our prime roasts off several days before they are offered for sale and put them away in our mammoth refrigerators and when they come out and are sent out to our customers they never fail to give the very best satisfaction. This is something that cannot be had elsewhere in Sedalia.

In fact all of our meats are held in our cold storage vaults for several days before they are offered for sale. This is why they give much better satisfaction than you get elsewhere.

We notice one fact which will give an idea of what estimation is placed upon our meats. Whenever any family is expecting company and want something extra and prime they always call on Newtons to furnish the meats. Why is this? You all know.

Come in. You will always receive the best of treatment and the choicest meats. Telephone 120.

Knew not the comforts of an armchair in heaven until he rested his skeleton upon the elastic springs in its cushions stuffed with down from angels' wings—so also, and therefore, you don't know how cheap Men's and Boys' Goods are until you know Blair Bros.' prices.

You would have guessed our \$8.00 Suits at \$10.00.

You would think it absurd that 14 and 18 dollar Suits elsewhere are 11 to 14 dollars on our counters.

False teeth grow fast to the gums of men learning our prices on Underwear, Socks, Handkerchiefs, Etc.

Lost men have been found petrified in their rooms gazing at our "King Shirts"—paralyzed at the value in them.

## BASE BALL GOSSIP.

Several Good Stories by Charlie Comiskey.

## NEW YORK TEAM'S 'RUBES.'

Will Johnny Ward Return to Gotham's Team—Caylor's Roast of Player "Kid" Baldwin.

Comiskey tells one in the Kansas City Times on Billy Taylor that's pretty fair. Billy attended a league meeting in New York several years ago for the purpose of borrowing money from all the touchable base ball people in sight. Johnnie Ward and Howard Hackett, the sporting writer, put up a job on Bill.

They got him full of the iced tea that makes such a difference in the morning, steered him out to the Polo grounds and locked him in the dressing room, tying his hands and feet before leaving him. When they went to the grounds the next day old Bill was snoring so vociferously that Ward thought a draught was coming in and ordered the ground-keeper to look for holes in the wall. It cost Ward \$20, to get rid of Billy.

"Dad Clark and Shorty Fuller were the Rubes on the New York team," says Captain Comiskey. "Clark was so verdant that the fans at the New York polo grounds couldn't distinguish him from the grass on the diamond."

"Ward and Clark attended the theater one night. After the show they were sauntering down New York's Broadway and Clark stopped short in front of a weinerwurst can. "What's that thing, John?" he said, pointing to the wurst can.

"That's the latest kind of a hand organ. Tell the German to play you a tune on it," suggested Ward.

"Dad gave the German a nickel and received a weinerwurst. This was the last time he ever asked John for information."

They are betting in New York that Johnnie Ward will be wearing a New York uniform before July 4. Ward's batting, base running, fielding, and above all, his executive ability, are sadly missed. George Davis is covering his position with his accustomed skill, but he lacks the personal magnetism and capacity to command that made Ward's reputation. Johnnie, however, swears he will keep his promise and refrain from springing a Patti surprise on the public by a "farewell" engagement. O. P. Caylor, the cadaverous and vinegary writer on the New York Herald, is urging Ward's return.

"Comiskey has volumes of funny stories about Chris Von der Ahe, and if he published them Puck would be a bad second compared with them," says Jimmie Manning. "Chris always tried to impress me with the value of the name of Browns. He called them 'Der Prowns.' He wrote me for dates for exhibition games early in the spring. He wanted \$100 guarantee for each game. The trade mark, 'Der Prowns,' was worth that much money, he claimed. Chris must discount me on eyesight, for I couldn't see where the \$100 guarantee per game came in. I told him so the next time we met. He laughed and jolled his business ability. I told him to send me green goods circulars instead of letters for \$100 guarantees if he expected me to bite at any con games. Chris laughed and insisted that the drinks were on him."

Caylor's repeated attacks on the players makes him a mark for the "roasts" of the boys as they sit around the dressing room or hotels.

They fear Caylor, however, and never fail to greet him with a respectful nod. Kid Baldwin, however, got even with Caylor, much to the disturbance of that erudite and consumptive gentleman. Caylor burnt Baldwin in a half-column roast in the Herald. Baldwin arrived in New York on the morning that Caylor's roast was published.

Baldwin, observing Caylor seated in the press box at the Brooklyn grounds, walked over to the box, which was then located on the ground behind the catcher. He extended his hand and Caylor accepted it. Baldwin jerked Caylor out of the box, excused himself for his rudeness and walked away.

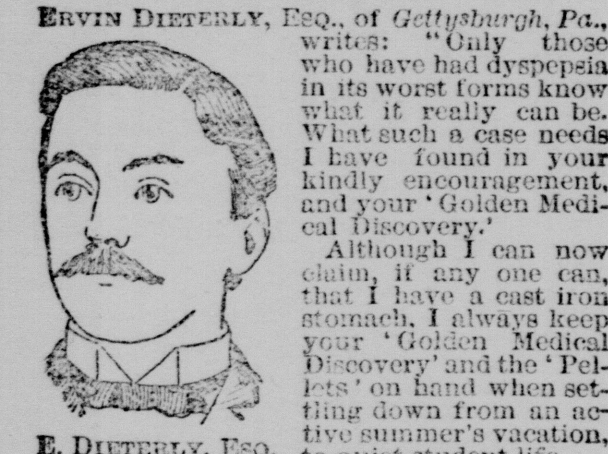

Mrs. Shaw's Lecture.

To purify, enrich and vitalize the blood, and thereby invigorate the liver and digestive organs, brace up the nerves, and put the system in order generally, "Golden Medical Discovery" has no equal.

ERVIN DIETERLY, Esq., of Gettysburg, Pa., writes: "Only those who have had dyspepsia in its worst forms know what it really can be. What a case needs I have found in your kindly encouragement, and your 'Golden Medical Discovery' to quiet stomach life."

Although I can now claim that I have a cast iron stomach, I always keep your 'Golden Medical Discovery' and the 'Pills' on hand when acting down from an active summer's vacation, to quiet stomach life. I heartily recommend these medicines to every one who is suffering from the nature that mine was. Sold everywhere.

## PREMIUM MEATS.

Sprayed Heifers a Specialty.

Beef from the old retired milch cow and cattle from the plains has been tried and found wanting in everything but bone, sinew and gristle, and lacking in juice, flavor, fat, tenderness and weight; it is not fit to eat, if one knows what good meat is and has an opportunity to choose it when buying.

Our beef needs no introduction, and it is with you whether you want selected goods and something you can relish for your money.

We are positively in line with more varieties and a better grade of fresh meats than all competitors. We can supply you with better cuts of fresh meats than any other market.

Try our meats, and get something in exchange for your money that you can enjoy.

Office of PIONEER PRESS COMPANY, C. W. HORNICK, Supt. St. Paul, Minn., Sept. 7, 1894.

Eureka Chemical & Mfg Co., La Crosse, Wis. Dear Sirs:—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keely Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago today I commenced using your preparation, and to-day I consider myself completely cured. I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it. Yours very truly, C. W. HORNICK.

## RAILROAD RUMBLE.

The Rate War Outlook Is Not Any Brighter.

## THE KANSAS CITY CUT-OFF

Items of Interest Picked Up From Various Sources for the Benefit of "Democrat" Readers.

The situation in passenger affairs west of the Mississippi river does not improve in any way.

The eastbound rate of \$10 from Denver to the river went into effect yesterday and the Union Pacific has threatened to put it in, westbound as well as eastbound. If it does what it threatens the reorganization of the Western Lines Passenger association will be put back for 12 months, at least.

The row, as far as it has now gone, has stirred up much bad blood and the longer it goes on the more obstacles there will be to the reorganization. The transcontinental lines have about concluded that it will do them no good to wait longer on the western lines and it is probable that a meeting to consider the formation of a Transcontinental Passenger association will be held in St. Louis next Friday.

Coach, Cab and Caboose.

The "Katy" train from the south was one hour late this morning.

Traveling Auditor Simon Cronin, of the Missouri Pacific, came in from the west this forenoon.

Conductor Goddard, of the Lexington branch, reports a heavy fall of rain and hail at Independence last night.

Assistant General Manager A. A. Allen, of the M., K. & T., departed last night for Parsons and goes from there to Texas.

E. H. Andrus, of Kansas City, land agent for the Union Pacific, is in the city today, the guest of Jos. G. White, the local agent.

Col. L. F. Sheldon, assistant superintendent of telegraph for the Missouri Pacific, was a passenger to Kansas City yesterday afternoon.

J. R. Reynolds, driver for the American Express Co., has been transferred to Nevada and will leave for there in a day or two. He will be succeeded here by F. B. Clark, of Moberly, who arrived this morning and will enter upon his duties tomorrow.

The Missouri Pacific took in a train load, twelve cars, of strawberries to Kansas City yesterday from Van Buren, Ark., making the run in fifteen hours. The train was decorated with streamers and attracted much attention at all points through which it passed.

General Superintendent A. A. Allen, of the M., K. & T., says that a fourth survey is now being made for the Kansas City cut-off, the survey starting six or seven miles south of Holden, on the Kansas and Arizona division, and running thence to Windsor. As to which route will finally be chosen Mr. Allen says it is impossible to state at this time; but be it what it may, either of the four surveys, the line will be completed and in operation by September 1, next.

STRIKERS DISCOURAGED.

Many of the Brickmakers Want to Return to Work.

St. Louis, Mo., May 8.—Ever since the brickmakers' strike began efforts have been made to secure the co-operation of the engineers, sitters and other skilled workmen connected with brickmaking.

They were invited to meet with the strikers yesterday, but as only a few responded, there is considerable discouragement in the ranks of the men who are out and some talk of calling the strike off. A majority favored a continuance of the strike, but nothing definite was done.

Clara (with emotion)—"Do you truly care for me just as much as when we were first engaged?"
